

Blake joined SPACES in early 2005 with great intentions of being a top notch sales person. We quickly discovered hidden talent and placed him in charge of the koi pond. Often seen lounging in the conference room without any pants, he never seems to be in a bad mood. He's enthusiastic about his job and brightens up our workplace with his gracious smile and charming personality. Never one to miss a party, he's likely to be the talk of the town after a SPACES after hours event. Blake has exceptional networking skills and has made quite an impression with the ladies. Although still single, he is often overheard talking about finding a small pad somewhere in LODO to raise a family.

## PROFESSIONAL

### Years in the industry?

Industry? I'm not sure what you mean.

### What do you like the most about what you do?

The excitement of meeting new people and jumping from project to project.

### What special value can SPACES bring to a client?

Choices. Experience. Reliability. Plus we see things from a frogs point of view. It really makes a huge difference.

### Why is SPACES different than other dealerships?

They appreciate people and frogs for who they are. SPACES knows how to create environments that appeal to both.
